Scotland, 1070-1230 (New Edinburgh History of Scotland):

1 of 1 review helpful Cha leabhar lan tarbh cach an sin By MacHomish I am enjoying this third installment from the New Edinburgh series If you like good solid history you can't go wrong here This volume centres upon the era conventionally labelled the Making of the kingdom or the Anglo Norman era in Scottish history It seeks a balance between traditional historiographical concentration on the feudalisation of Scottish society as part of the wholesale importation of alien cultural traditions by a modernising monarchy and more recent emphasis on the continuing vitality and centrality of Gaelic culture and traditions within the twelfth and early thirteenth There is much here that is worthwhile This is particularly true of the first half of the book where the political narrative has many high points as well as the thematic chapters which make the most of Oram's personal expertise namely those on rural change
