## Weddings: A Practical Guidebook (Weddings/Marriage):

1 of 1 review helpful Great starting point By Daniel Blackburn This book is a very good starting point for anyone looking to stage a wedding in North America with a Scottish theme Now to be fair I am a bit biased since I too am from the Clan Gunn and also attended Oberlin College like the author though I did not know this when I purchased this book Anyway onto the subject at hand This is a good resource in t This unique volume is a must have for brides and grooms to be interweaving Scottish customs and traditions with every step of the wedding process Appendices include Clan and Family Reference Dividing Expenses and Responsibilities Glossary of Terms and Scottish Baby Names Reference and Resources section provides additional guidance for planning the wedding and beyond Photos and illustrations throughout About the Author Wric Merrill Budd
