Codebreakers: Arne Beurling and the Swedish Crypto Program During World War II:

0 of 0 review helpful the brilliant book by Simon Singh was an eye opener By Mats Ouml gren This is a true story about codebreaking during WW2 The parallels with Bletchley Park are numerous the common opponent in the war between cryptologists the race against time during most of 1940 the crucial importance of a single person to name but a few And the lack of champagne and party crackers afterwards Only several deca One of the greatest accomplishments in the history of cryptography occurred in 1940 when a Swedish mathematician broke the German code used for strategic military communications This story has all the elements of a classic thriller a desperate wartime situation a moody and secretive mathematical genius with a talent for cryptography and a stunning mathematical feat mysterious to this day Arne Beurling the man who inherited Einstein's office at Princeton's Institut Credit is due to the American Mathematical Society that now an English translation carried out with great competence by Kjell Ove Widman has appeared The translation allows a wide general public with no knowledge of the Swedish language to compare the Swedi
