Landscape Scars (Palgrave Studies in the History of Science and Technology):

Post industrial landscape scars are traces of 20th century utopian visions of society they relate to fear and resistance

expressed by popular movements and to relations between industrial workers and those in power. The metaphor of the scar pinpoints the inherent ambiguity of memory work by signifying both positive and negative experiences as well as the contemporary challenges of living with these physical and mental marks. In this book Anna Storm explores post-indus
