0 of 0 review helpful Excellent comprehensive study By hopkins I would recommend this book highly to anyone with interest in the Hebrides It is large heavy and comprehensive giving dual language place names as well as a lot of text Every major and most minor islands are covered the aerial photography is just what one wants and is in full color and almost best of all the beginning map is brilliant a topographical m The Hebrides of Scotland ndash around 500 diverse islands ndash form the north western Atlantic fringe of Europe This book surveys the cultural landscape of this dramatically beautiful complex and conflicted area with emphasis on what may be interpreted through aerial photography Mobile maritime cultures flourished throughout the Hebrides from prehistoric times including Mesolithic builders of wheelhouses coracle borne monastic travelers Norse in longships and About the Author Angus Macdonald and Patricia Macdonald have collaborated for over twenty years on the record and interpretation of the history and

current state of the environment and of cultural landscapes using aerial photography as the main to
