**By Stuart McHardy : Pagan Symbols of the Picts: The Symbolology of pre-Christian Belief** Pagan Symbols of the Picts: The Symbolology of pre-Christian Belief:

5 of 5 review helpful Not what I was hoping for By Titus I felt like the title didn't live up much to the subject matter The author presents a nuanced case concerning the origins of an early mother goddess related to fertility Almost every

symbol is related back to this goddess It was interesting but not what I was hoping for I was looking for an authoritative voice on the V rod and Z rod symbols I left disappointed Stuart McHardy examines the Pictish symbols which have been discovered on various items across Scotland The book sets out a cohesive interpretation of the Pictish past using a variety of both temporal and geographical sources This interpretation serves as a backdrop for his analysis of the symbols themselves providing a context for his suggestion that there was an underlying series of ideas and beliefs behind the creation of the symbols About the Author STUART McHARDY is a writer occasional broadcaster and storyteller Having been actively involved in many aspects of Scottish culture throughout his adult life ndash music poetry language history
