James, Earl of Moray: Regent of Scotland (Tudor Times Insights (Profiles)) (Volume 15):

James Stewart Earl of Moray was an illegitimate son of James V. He played a pivotal role in the politics of Scotland between 1555 and his assassination in 1571 first as a supporter of his half sister Mary Queen of Scots but later as her rival for power. Moray's career is controversial and definitely involved in the murder of Mary's secretary Rizzio. Was he also behind the plot to assassinate Darnley with a hidden plan to overthrow Mary? Or was he merely a tool of others?
